Subject: RE: EPA messaging for Gold King Mine incident

Good evening,

Has the EPA developed any public information materials . .other than the website?

It would be helpful to know what exactly the Community Involvement Coordinators are doing (when public meeting are scheduled, are they distributing any literature). Many questions are coming from our Navajo Nation tribal partners.

It might be helpful to share current photos of what the river looks like now at the various points between the origin and down the river. People keep looking at the very gold/yellow photos and it might be helpful to show that it has diluted.

Thanks, Judy

There is a lot going on. I'm copying Kelly Zito, our current head of public affairs and Bill Keener, our manager of the press and congressional team. Francisco is no longer with Region 9 and I am no longer in the public affairs group. Margot is currently on leave.

Kathleen H. Johnson

Director, Enforcement Division

U.S. EPA - Region 9

Subject: EPA messaging for Gold King Mine incident

Good afternoon,

I am a little late to the party.

Is there EPA messaging that can be shared for the Gold King Mine incident?

Is there a coordinated PIO effort?

Thanks,

Judy

Respectfully,

Judy Kioski, Public Information Officer
